WHY AMERICAN JEWS HAVE GONE BERSERK

(Continued from Page 1, Column 3)

grip of fatal lunacy. American Jewish propagandists have long manipulated both of these images to their great advantage. American Jews baited the American Gentile working man as a "DIRTY RED," while at the same time they spent millions of dollars financing the Russian and Chinese Communist revolutions. The original purpose of the Russian revolution was to make Russia a satrapy ruled by remote control from New York. Leon Trotsky, a New Yorker, was made commander in chief of the Red Army. The Jews of New York now had an Army at their command. They were powerful men indeed. They manipulated Marxist ideology to build their power around the world.

So-called "anti-Communists" are just as important to the Jews as Communists. BOTH SIDES of the Right-Left lie have to be kept cooking furiously. The typical American professional "anti-Communist" is a young idealist in the beginning. He wants to "Fight Communism." Gradually, he learns from "Older Heads" in the game. He sees that the old pros in the field always pull their punches and are careful not to do any actual harm to the Communists. Someone whispers to him that there are "REASONS" why these things must be. It is sort of like foxy old Grandma explaining to a young boy that the stork does not really bring babies. There is a "GREAT MYSTERY" hidden somewhere in the picture. Gradually, the young anti-Communist learns that the "Fight Against Communism" is a fraud. Nobody is really fighting anything. Finally the chill, bleak curtain of total cynicism falls. The young idealist realizes that the BIG RICH of America are secretly supporting Communism around the world, even while they pretend to be "anti-Communists." The purpose of the professional anti-Communist is to be a shill and front man for this shoddy intellectual racket.

These shoddy intellectual racketeers are always writing to COMMON SENSE to tell us that we have made "errors." We have not followed their "line." We have deviated from the standard, accepted mythology. Indeed we have. Conde McGinley did not found COMMON SENSE for the purpose of fighting a sham battle. We do not associate ourselves with the kind of "anti-Communists" who are only fighting a sham battle, who are openly "anti-Communist" but who secretly do business with the Jews and the Marxists.

Anyway, this racket is DEAD.

In order to succeed, this racket had to control both the U.S.A. and Russia. Today the Jewish game in Russia is hopelessly and irretrievably lost. Russia will soon take the place of Hitler as the Eastern Hemisphere nemesis of the Jews. The ultimate purpose of Russia is to make the Eastern Hemisphere completely JUDENFREI. We know, without being told by vast hordes of sweet little old ladies of both sexes, that this is contrary to the accepted Right-Wing myths. Apparently it is important to many people to believe that "RED RUSSIA" is firmly in the grip of Jew-Marxists; that all Russians are fanatic believers in DAS KAPITAL. This view is derived from the myths created by the American Jews. The "Russia" created by American Jewish propaganda doesn't exist on this planet or any other. There is a place called Russia, located on the other side of the world. No accurate information about the real Russia is to be derived from either Right-Wing or Left-Wing propaganda. American Right-Left propaganda about Russia is purely propaganda and nothing else. It is concocted solely for the purpose of influencing American domestic opinion. It does not bother itself about the real Russia at all. When the propagandists set themselves to work, they do not believe that the American people are entitled to any really accurate information. The American people are regarded as merely so many sheep to be herded. The Right-Winger seeks to associate RED RUSSIA with the American working class, so as to intensify class hatred against them; the Left-Winger seeks to equate RED RUSSIA with worldwide social progress, in order to promote Left-Wing causes in the U.S.A. This may have been all very well back in the 1920's. In those days, Russia seemed safely remote and could be used as a propaganda foil without much regard for what was really going on there.

Nobody in the United States, either Right or Left, bothered to ask whether or not the Russians would go along with the game. It was simply assumed that they would. The Jewish myths of the 1920's made Russia the "Clown of the World;" the nation engaged in a foolish and ill-fated social experiment.

Today Russia has rebelled against the Jewish myth. Russia today is no longer a myth. Russia is a dangerous reality. Russia is a gargantuan armed camp which is planning a military attack upon the United States. This is not alone the opinion of COMMON SENSE. U.S. Military Intelligence has warned both Congress and the President that the United States is in danger of annihilation. During the past year, we have cited competent authorities for this view in COMMON SENSE. We have cited the views of General Nathan F. Twining, former head of the Joint Chiefs of Staff; we have cited Dr. James McBride, of the Institute for Strategic Studies at Georgetown University. General Twining's book NEITHER LIBERTY NOR SAFETY will tell the average citizen what he needs to know about the matter. We have also cited General Curtis LeMay's book AMERICA IN DANGER.

What is the nature of the Jewish failure in Russia?

One day, shortly after the death of Stalin, two divisions of Red Army troops were brought near Moscow, on the pretext of holding maneuvers. Suddenly these troops swept into the city and surrounded the infamous Lubkiana Prison and Secret Police Headquarters. Control of the Secret Police was the real essential of Jewish power in Russia. On that day, troops went inside the Lubkiana Headquarters and spattered the walls liberally with Jewish gore. All over Russia, the scene was repeated. A decisive coup occurred. The Army took over from the Jews. World Jewry was horrified, but little was said about the matter in the Jew-owned mass-media. It was deemed better to cover the matter up and attempt to cope with it through ideological machinations, the typical power-method of the Jews. This is the real cause of the Sino-Russian split. Chairman Mao is a stooge of the American Jews. The Chinese Communist revolution was uniquely a creation of the American Jews owing its existence to American Jewish money and propaganda. Therefore, when Russia became unruly, the American Jews set Mao against the Russians in an effort to discipline them. The American Jews fought Russia inside the World Communist Movement.

The plain fact is that the present-day rulers of Russia do not care a jolly good damn what happens to the "World Communist Movement." They are not depending upon Communism to give them world power. They are depending upon orthodox military and diplomatic means. They are playing the "Power Game" just exactly the way Prince Talleyrand or Cardinal Richelieu would have played it under the same circumstances.

At the time of the "June War" in 1967, many Right-Wing papers, told you that there was a "Secret Agreement" between Russia and Israel, and that both were working together to "Advance World Communism." This became, for a time, the "standard" Right-Wing myth. It is a myth which won't hold water. COMMON SENSE does not peddle either Right-Wing or Left-Wing myths. When we report on world events, we take the trouble to find out what is really going on. The fact is that the Army, which now rules Russia, hates the Jews. But Russian policy in the Middle East is not based upon a mere emotional hatred of the Jews; it is based upon a sound understanding of the Power Game. The name of the game is to destroy the United States. First, our world position is to be eroded away. Finally, there is to be a military attack which will wipe out the present population of the United States and make our land available for resettlement by Russia's own growing population. There are three important factors to be kept in mind about the coming Russian attack upon the United States:

1. It will be a MILITARY attack. It will not be related in any way to Communist revolutionary activity. The Army men who rule Russia today have never even read Karl Marx and couldn't care less what happens to his worthless ideas.

2. The attack will not come at a time of international crisis or high international tension. In order to achieve a maximum of surprise, the Russians will make their attack at a time of RELAXED international relations. The most likely time of the attack will be a time when the pack of fools and scoundrels in the State Department have just signed some sort of "peace treaty" with Russia.

3. It is NOT the purpose of Russia to "Communize" the United States. They are not concerned in any way with our asinine domestic pseudo-controversies which are polarized between "Left" and "Right." In Russia itself there is no "Left Wing" and no "Right Wing." There is only "Holy Russia," the Third Rome, the big armed camp which has a divine mission to conquer the world and wipe out the wicked Americans.

This is the real nature of the menace which confronts the American people today. The real defense lies in the field of Military Technology, not in the field of anti-Communist gasbaggery. We can survive only if we possess an overwhelmingly superior military technology. Anything else is not even worth talking about. Yet it has been the policy of the McNamara regime in Defense and the Walt Rostow crowd in State to weaken American defenses, to promote "Disarmament" and "Test Ban Treaties." This is the purest essence of National Suicide. If the McNamara-Rostow policies are continued into another four years in Washington, we

(Continued on Page 3, Column 1)

ZIONISTS PLOTTED END OF U.S. NATIONHOOD

SIDNEY J. WEINBERG, successor to Baruch and world powerful Zionist, director of 31 of America's largest corporations, directs Council of Foreign Relations and Business Advisory Council. Weinberg not only fills vacancies but creates them. **WALT ROSTOW,** top State Dept. planner, Special White House Assistant, stated in his book "The United States in the World Arena": " . . . It is, therefore, in America's interest to see an end to nationhood as it has been historically defined." **ADAM YARMOLINSKY,** Deputy Assistant Secy. of Defense for International Affairs. In sworn testimony before a Senate committee April 5, 1962, Yarmolinsky dropped this gem: "I believe that I was inclined to believe that a Communist government was desirable."
